

Annex of the Country Development Cooperation Policy (or the Country Assistance Policy)

Rolling Plan for Libya

As of April 2021

Basic Policy of Assistance	Economic and industrial development and governance support for post-conflict social stabilization
----------------------------	---

Priority Area 1	Economic and Industrial Development and Human Resource Development Support
-----------------	--

Development Issue 1-1 Post-conflict Economic and Industrial Development Assistance	[Background and current situation] The collapse of the government in 2011, the East-West conflict since 2014, and the armed clashes around Tripoli in 2019-2020 have destroyed Libya's economic infrastructure and reconstruction has not progressed. In addition, as the country has the 10th largest oil reserves in the world, its economy and finances are heavily dependent on oil and natural gas exports, and the vast majority of the population works in the public sector. Therefore, economic infrastructure restoration, diversification of industry, economic development in the rural areas, private sector promotion, human resource development, and job creation especially for young people are the major challenges.			[Strategy] The main focus has been on emergency assistance to address humanitarian crises caused by armed conflicts. After the 2020 ceasefire agreement and the progress of the political process, the focus will be on assistance for human resource development and economic and industrial development.

Priority Area 1	Governance Support
-----------------	--------------------

Development Issue 2-1 Post-conflict Governance Support	[Background and current situation] The collapse of the government in 2011, the East-West conflict since 2014, and the fighting around Tripoli in 2019-2020 have destroyed the country's administrative and institutional structures and social infrastructure. As reconstruction has not progressed, there are various challenges for administrative and judicial capacity building and promoting decentralization in order to hold national and local elections and achieve political stability.			[Strategy] The main focus of the assistance will be on governance support, such as administrative and judicial human resource development and institutional building, based on the improving political process and growing capacity building needs in central and local governments.
